

SAURABH WANKHADE

Python Backend Developer | Django · DRF · REST APIs · MySQL

Pune, Maharashtra, India | +91 7038404116 | saurabhinfo03@gmail.com

PROFESSIONAL SUMMARY

Python Developer with a B.E. in Information Technology, skilled in backend web development using Python and Django. Hands-on experience developing web applications through academic projects involving Django ORM, CRUD operations, authentication & authorization, database integration, MySQL, and REST APIs. Familiar with Django REST Framework, form validation, session management, and Git/GitHub. Strong problem-solving skills with a keen interest in backend development and building secure, reliable, and scalable web applications.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, Django REST Framework (DRF), C, C++, Object-Oriented Programming (OOP)

API Development: RESTful APIs, CRUD Operations

Databases: MySQL, SQLite, Django ORM, Database Design, SQL

Authentication & Security: User Authentication, Authorization, Session Management, Access Control

Data Handling: File Upload & Handling, Form Validation, Database Integration

Web Technologies: HTML, CSS, JavaScript, Bootstrap

Tools & Practices: Git, GitHub, AWS(Basic), Debugging, Version Control

PROJECTS

Institute Management & Billing System | *Python, Django, MySQL, HTML, CSS, JavaScript*

- Developed a web-based institute management system for students, teachers, courses, fees, billing, and reports.
- Built modules for Student, Teacher, Course, Fee Collection, Billing, Receipt, and Invoice Management.
- Implemented fee tracking, pending fee management, receipt generation, invoice generation, and billing reports.
- Integrated Django ORM, MySQL database, authentication, file handling, and dashboard functionality.

KYC Verification System | *Python, Django, MySQL, HTML, CSS, JavaScript*

- Developed a web-based KYC verification application with User and Admin workflows.
- Built modules for authentication, KYC application, document upload, selfie capture, profile management, and status tracking.
- Implemented selfie capture using JavaScript, HTML5 Canvas, and Camera API with capture and retake functionality.
- Integrated Django Forms, Django ORM, MySQL, file handling, and role-based workflows.

Banking Management System | *Python, Django, MySQL, HTML, CSS, Bootstrap*

- Developed a web-based banking system to manage accounts, deposits, withdrawals, and transactions.
- Built Account and Transaction modules with CRUD operations using Django ORM.
- Implemented automatic balance updates and insufficient-funds validation.
- Designed responsive account details and transaction history interfaces using Bootstrap.

EDUCATION

Bachelor of Engineering (Information Technology)

Sant Gadge Baba Amravati University (SGBAU)

2021–2025

CGPA: 7.93

Higher Secondary Certificate (HSC)

Sant Gadge Baba Amravati University (SGBAU)

2020–2021

Percentage: 91.17%

CERTIFICATIONS

Python Django Full Stack Certification

Naresh Institute of Technology
